-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) Responsive to communication(s) filed on 24 November 2003.
- 2a) This action is FINAL.                            2b) This action is non-final.

## **DETAILED ACTION**

### ***Specification***

The status of the priority applications listed in the first paragraph of the specification should be updated.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: at line 3, "fluides" should be replaced with --fluids--. Appropriate correction is required.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 and 2 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 2, 6 and 17 of U.S. Patent No. 6,652,495 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '495 patent claims every element of the instant invention. The instant invention is broader in scope than that claimed by the '495 patent.

Claim 1 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 and 12 of U.S. Patent No. 5,741,237 A. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '237 patent claims every element of the instant invention. The instant invention is broader in scope than that claimed by the '237 patent.

### ***Claim Rejections – 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. § 102(b) as being anticipated by Beguiristain (US 3,612,089).

Regarding claim 1, Beguiristain teaches a check valve (29, 31, 32) for a canister (12, 13, 14, 15) adapted to receive fluids, said canister (12, 13, 14, 15) adapted to receive

fluids, said canister (12, 13, 14, 15) having a vacuum port (25, 29) for application of vacuum to said canister (12, 13, 14, 15) for inducing a flow of fluids into said canister (12, 13, 14, 15), said check valve (29, 31, 32) being operably coupled to said vacuum port (25, 29) for stopping said application of vacuum to said canister (12, 13, 14, 15) when said fluids in said canister (12, 13, 14, 15) reach a pre-determined level (see figure 1, below).

Regarding claim 2, Beguiristain teaches a check valve (29, 31, 32) which comprises:

- (a) a floatball (32) operably coupled to a needle valve (44); and

(b) a floatball cage (29, 31) for housing said floatball (32), said floatball cage (29, 31) comprises a needle valve guide (27, 29, 43) for slidably retaining said needle valve (44)(col. 2, lines 26-75)(figure 1).

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Bogart whose telephone number is (571) 272-4933.

In the event the examiner is not available, the Examiner's supervisor, Tatyana Zalukaeva may be reached at phone number (571) 272-1115. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300 for formal communications. For informal communications, the direct fax to the Examiner is (571) 273-4933.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-3700.
